

# Can't Find **Load Tap Changer** **Contacts** or **Circuit Breaker** Replacement Parts?

## WES Has You Covered.

## Don't Replace Those Breakers and Switchgear. **Remanufacture ... And Save Thousands!**

**Western Electrical Services, Inc. (WES)** specializes in the design, reverse engineering, manufacturing, and remanufacturing of obsolete electrical parts, including contacts, contact kits, and replacement parts for all makes and models of load tap changers, circuit breakers, and switchgear.

We can custom design or reverse engineer, manufacture, or remanufacture:

- Load tap changers
- Air circuit breakers
- Oil circuit breakers
- Air switches
- Oil switches
- Motor starters
- DC controls

### WES CUSTOM MANUFACTURES:

- Virtually all parts for obsolete circuit breakers and switchgear
- Bus
- Flexible braid connectors
- Foil flex connectors
- Fiberboard
- Insulating products such as tap boards, insulation links, etc.

### FOR ALL MAJOR OEMs, INCLUDING:

- Delta Star
- Federal Pacific Electric
- Ferranti-Packard
- General Electric
- Hitachi
- Inque Denke, ITE, McGraw-Edison... and more!

Whether your requirements are to remanufacture a group of contact assemblies, produce spares for obsolete equipment, or simply repair one part or contact, **WES has your back.**

# WES Has You Covered— From New to Old and Back Again.

**Western Electrical Services's** capabilities in design, manufacturing, remanufacturing, retrofitting, reverse engineering, and replacement parts give us the ability to economically extend the life of your electrical apparatus.

WES employs a full-service machine shop to manufacture custom bus, flexible connectors, parts for obsolete breakers and switchgear, fiberboard and insulating products, and a wide range of obsolete replacement parts for load tap changers, switches, and vintage electrical switchgear parts.

WES is a full member of the **InterNational Electrical Testing Association (NETA)** and the **Professional Electrical Apparatus Recyclers League (PEARL)**.

While NETA membership means you can trust WES with all your field testing and on-site electrical maintenance, our PEARL membership guarantees strict adherence to the industry's best remanufacturing standards to ensure the proper remanufacture and life extension of electrical power equipment.

With manufacturing operations based in Phoenix, AZ, and Sumner, WA, WES serves customers all over the West and throughout the U.S. and Canada.
